"Sound of Freedom" Success Evinces Society's Readiness to Evoke R.C.

I've been so glad to see how well the Box Office blockbuster, "Sound of Freedom" is doing in theaters, notwithstanding so many obstacles. My dad is friends with Tim Ballard, the hero featured in the movie, a high action movie about the uncomfortable subject of child sex trafficking.

I've loved the many interviews I've seen on RAV TV (Real America's Voice) with Tim, Tom Cawrso (plays Tim; played Jesus in Mel Gibson's "The Passion"), Eduardo the Producer, etc... from the film. Especially Steve Bannon of the War Room pushed pre-sales of the show to help show theaters what a demand there would be for the film; so it launched July 4 as #1 against the new Indiana Jones movie and Disney's ~~Indescribable~~ and Mission Impossible and Spider Man and others.

Today, during Pres. Trump's screening of the film at his NT Bedminster (so?) resort, the film is likely to surpass the \$100 million ticket sales landmark.

I see the success of this awakening film demonstrating how our society is poised and ready

to evoke the repentance clause (r.c.) of prophecy that says if a sufficient core of society turns back to God and goodness, then the destructiveness and captivity to which we've been headed will be averted, and we can go straight to the kingdom of heaven on earth instead.

I was not surprised that the studio that stepped up to bring the movie forward was Angel studios, which is producing "The Chosen" series.

God's hand is being shown magnificently in all of this. People are waking up, repenting, getting active in opposing evil.

One thing I've not heard expressed is how this film touches on a crime that is deeply embedded in the blackmailing of chief politicians, media moguls, industry icons. Epstein's Island is mentioned, but the repercussions are not elaborated.

Of course this is being associated with Q-anon, which exposes this conspiracy. It's not a "theory" or bogus claim.
