Interim Memo (9/19²⁰-9/27) - Busy with SOLID, Got Behind, Shipping/Catching Up

by Sterling D. Allan, 228033; USCF

Sept. 19-27, 2024 Memo about omitted content

Yes, I've been keenly focused on SOLID developments here in prison, which has caused me to fall significantly behind. Rather than get bogged down trying to catch up, I'm going to just ship the interim for now. I might go back and catch some highlights, as I can.

A tendency would be to just drop this as too much - beyond what I can do with all that's on my platter. But actually, this is good practice for me, because I would like to do this "Sterling Daily" feature through the millennium, notwithstanding how busy I get.

Some recent developments of note include:

I applied for these three job openings here in SOLID.

- Education Coordinator (Bldg.)
- Section 2 Representative (Lead)
- " " Seminar Lead

I'm preparing for my upcoming (10/2) seminar on "My Vision for SOLID."

I'm anticipating working with my podmate friend, Christian Fairbanks on launching his "Addiction Recovery Through BASE Jumping" here in prison.
