- Sis. Ward Conversation (About Directing) ^{Departure from Choir A} (5) Daily 3/10-16

At ~ 9am, I asked Sis. Ward if I could chat with her 5-10 min. She very reluctantly gave me ~4 mins near the end of the hour. I wanted to direct. She very firmly declined. She's always directed her own choirs, while accompanying [~~so much~~ ^{snuffing} for body of Christ]. Rather than listen to a win-win proposal, she basically said "my way or the highway." I told her I was opting out. However, after returning back to housing I felt a nudge to go back. I could at least "practice" on the behind-the-back row spot. Then on a certain song, she was practicing a closing page of music over and over: one part, then the second (of two); but when she added her accompaniment, it turned out it was her ~~to~~ wrong-tempo that was to blame, not the singers. I politely made a suggestion to remedy this. She discarded it, and kept practicing the same thing. I turned my music ~~to~~ on and left. Rather than fostering excellence, she fosters mediocrity, reserving excellence to herself, which is punctuated with mediocre errors because she's impervious to good input.
