Institute (Bro. Shaw) NT

The instructor J had four scripture references written on the board and assigned people to look them up and comment on it. I was assigned "Jer. 31:15". As people were doing that, I went up to him to note that I had put Jer. 31:16, 17 to music as part of a composition for my parents' mission farewell (7 min). [I realize now I did not mention I could isolate just those two verses, ~1.5 min.] I ~~off~~ said I'd be glad to play it for the class. He said we could do it at the end, if we have time (knowing we wouldn't have time). [Made me <sup>inclined</sup> ~~not~~ want to <sup>and</sup> come to his class any more if he's ~~going~~ to snuff greater things, following the Spirit, but just do a canned / status quo lesson.]
