• Kim visits N. Korean uranium enrichment facility (2)

(9) • PBS Show: "Julius Caesar: The Making of a Dictator"

3 hour, 3-part documentary @2023 concludes that Caesar (~56 BC range) ~~has~~ marked a pivotal turning point in Roman history. It ended 500 years of democratic rule of a Republic and commenced 500 years of rule by emperors. [The leftist ABC / PBS spin, talking about the need to protect democracy from a 10-year subversion ~~clearly~~ implied Tr., when in reality, the Marxists are the true usurpers of our Republic.]

• Seminar (SOLID) "Communication Skills" (Jesse & JJ)

Exercise / Demo: Jesse drew an image, part by part, on front of white board. JJ was on other side of board. Our task was to instruct him on all ~~than~~ the things he needed to do to replicate the image. After ~5 min, white board was turned around. Blank. We didn't tell him to take the cap off ~~the~~ the marker. [I protest over how this epitomizes the ridiculousness that is so common in the bureaucratic prison environment; We should be seeking ~~to~~ common sense, not reinforcing bureaucracy.]

• Seminar: "Jury" (Ken)

Jury started in U.S. / world with NY witch trials. Common Law is based on Common sense. The jury in U.S. has the right to judge when a law is bad. [The establishment has ^{nearly} snuffed out this key right, which is one of the last checks on power (to the people).]
