Charlie Kirk's Martyrdom Prophesied in Detail in the Alphabetics Bible Code

Dec. 10, 2025

Enclosed is a one page highlight of how the late Charlie Kirk is described in detail in the Alphabetics Bible Code I discovered in 1996. I've found more than 100k correlations in the last ten years during my incarceration. The Charlie Kirk ones are among my favorite.

The ASCII sum of "Charlie" = 401, and NT def # G (Greek) 401 in Strong's @2007 Concordance dictionary/lexicon means "effusion". The def. my tablet gave for that is "effusion unrestrained expression of words or feelings; the escape of fluid [blood] from anatomical vessels by rupture or exudation". Hence, in that one word is a description of Charlie as an exuberant speaker and his assassination method.

The AB code is a function of the totality of the King James Bible. God is who makes this possible. No one did any of this ~~of~~ on purpose. God did it.

There's a 62-page elaboration of this on my blog at IIndComing.org, dated 9/15-10/11/25. Presently, the blog listings are in chronological sequence.

Take a look also at my "Daily" news highlights and commentary. It's like a cross between Jesse Kelly and Newsmax/NTA/OAN, minus video.

You'll also want to take a look through my editorial listings, and read a few that capture your interest. Those are usually 1-3 pages.

To get an overview of my unusual/advanced paradigm, I recommend that you start at the "Intro" index.

Great things are unfolding.

Thanks for the role you are playing in the body of Christ to bring about a brilliant & righteous future. We are indeed headed to a golden future - if we as a society sufficiently repent.

Sincerely

Sterling
