Seminar for Show — Executives Visit

Today, we (SOLID, Bear 2's 384 inmates) knew we were going to be visited by an entourage of executive leaders (prison, state) who wanted to come observe some seminars in session. We

were told it would likely be around 3:15 pm, so we began our seminars at 3 pm. We ^(section 1) had our best presenter, "Shoe" (James Sherard), who is a gifted teacher. We had a great dialogue going (he & I and several others being more involved) and were able to keep our momentum going, even though the time grew longer and longer.

We just kept going. Meanwhile, other sections one by one petered out.

So by the time they (executives) finally arrived at around 5:15 pm

(a usual seminar goes half an hour) our section was the

only one still going, so the entourage came into our

~~sess~~ section and stayed there for about 10 minutes.

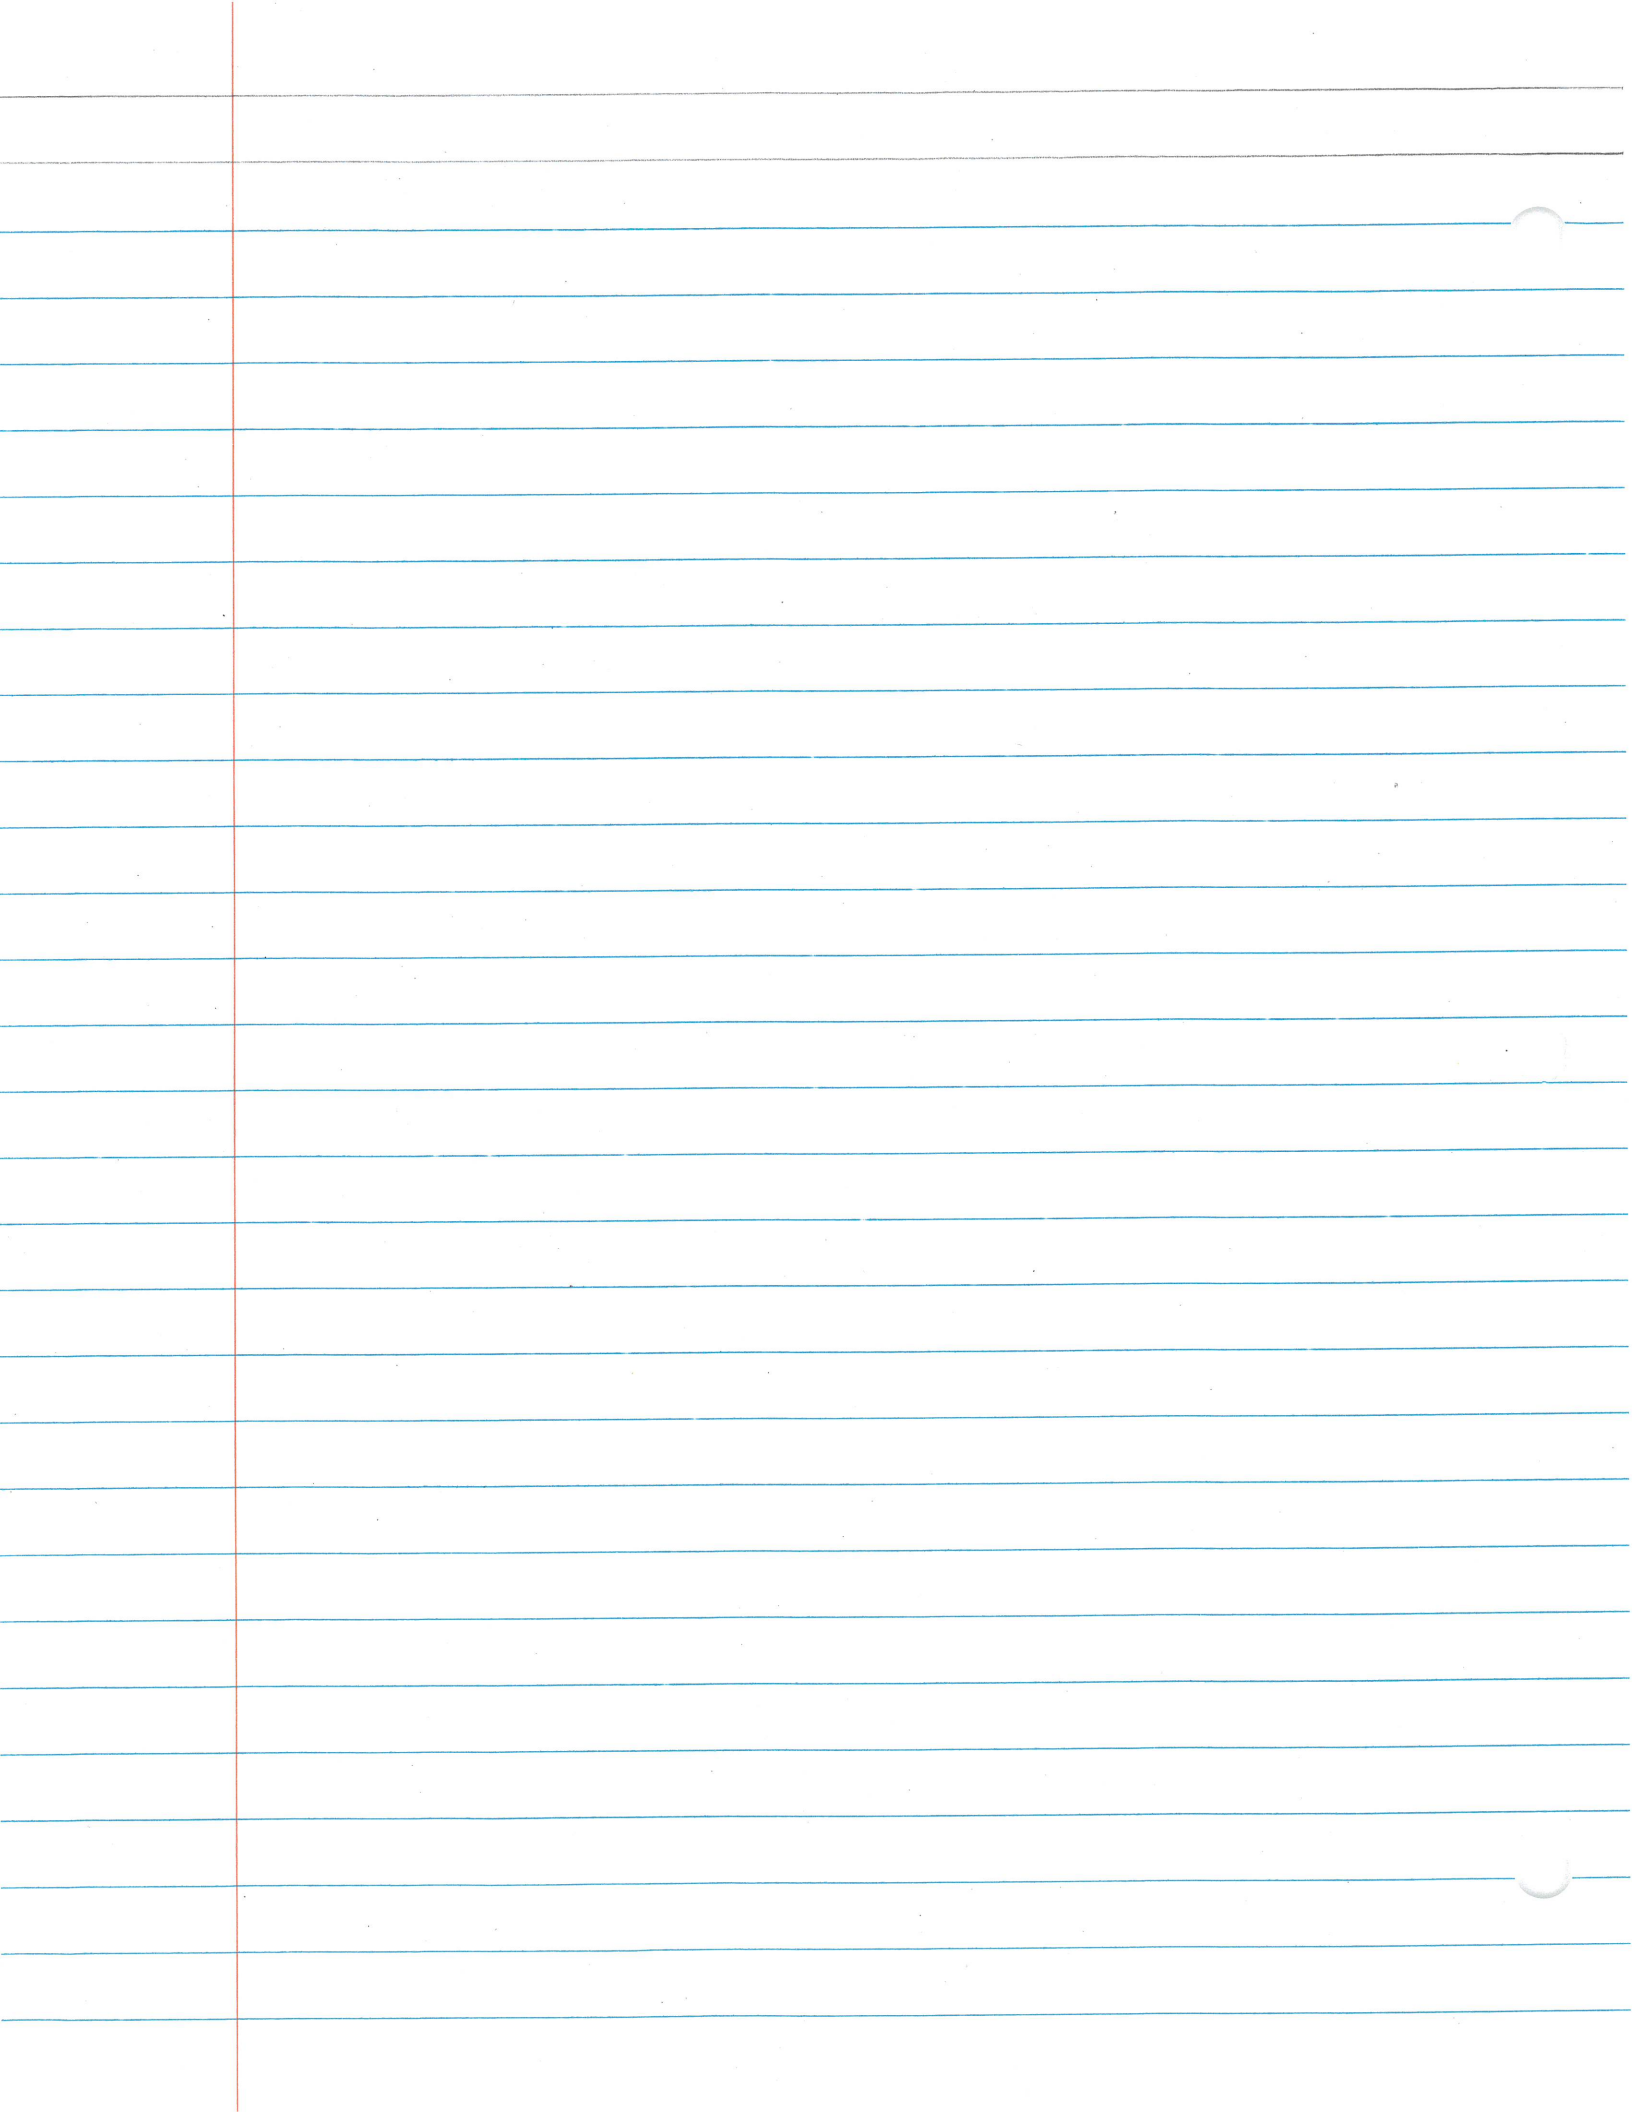

Shoe didn't show a beat as they filed in to the front

of the room, where Shoe was presenting. They ^{Daily} ③ 11/18/24 could immediately see how gifted he is as a presenter. The room ~~was~~ /section day room, was filled with probably all 64 of us. All paying attention to the words of wisdom coming from Shoe.

I was sitting in the front row ~~as~~ on the right, facing the front. I raised my hand to make a comment on something Shoe said, ~~that~~ to the effect that one benefit of the SOLID program is that we have a group schedule to follow, to get used to the kind of schedule rigor we'll have on the outside. After I made my comment, one of the executives came up to me and shook my hand. It was UT Sen. Darren Owens. He said he'd let my parents know he saw me (he's in their ward). He seemed very pleased with what he was ~~seeing~~, seeing, both of our section's seminar, as well as in me in particular, and the positive impact he could see me having here. Even as he returned to where he had been standing, he continued to signal to me, what seemed to be something to the effect of, "I'll write." He's visited me twice (as a VIP, with a senior officer escort) ^{But now,} but has not written yet. "He was being obviously ~~reg~~ recognizing of me, for all to see.

There were at least a dozen executives present, and all of them seemed impressed at the caliber of what they were beholding/witnessing.

- [Ground Zero] 2 communications lines cut in E. Border allowing Uk to send long-range US missiles into Rus
- Caller: "They [establishment] would rather risk blowing up the planet than relinquish power" [and be held accountable for their treason].

Told Chris About My Paradigm

This morning, Christian Fairbanks and I didn't go to the chapel to practice^{our} "You Raise Me Up" arrangement (to sing in Church tomorrow) because of the toxicity that has arisen toward us from the clerks and some volunteers. Instead, I spent the two hours laying out the key points of my paradigm, which I've not shared with him until now. Part A, scripture prophecies about it. B. Part B, AB prophecies pinpointing. He took notes and followed everything I said. Time flew. He's by far the most receptive person I've talked to about this heavy stuff. Didn't seem phased in the least. When I brought up 622 (June 22 day I went to prison), he said he was arrested this year on that day.

Sterling Daily (11/24/24): KBYU's "Come Follow Up" is Silent on Eth. 8:25 - Salt Losing Savor

by Sterling D. Allan, 228033; USCIF

Nov. 24, 2024, Sun. News⁺ Highlights & [Commentary]

- ^{4:50am} BYU devotional, Legrand Curtis highlighted Pres. Eyring's biography, I Will Lead You Along with chapter headings like, "Follow the Brethren." [Is idolatry. 2:40-48] we're supposed to follow the Lord. } It's not one and the same. (JST-Mark 1:5a)
- Come Follow Up, Eth. 6-11 Kerry Muhlestein, BYU Prof. (of Religion) said he asked BFM instructors, seminary teachers what they usually teach from Eth. 6-11. They almost unanimously said they "usually skipped it." I find this appalling, given that one of the most important BFM passages is here: Eth. 8:20-26, esp. 25, 26, ~~about~~ which is a prophecy about a conspiracy / secret combination to arise in our ^{day} ~~days~~ that "seek[s] to overthrow the freedom of all lands, nations, and countries; and it bringeth to pass the destruction of all people" [if we don't repent, according to vs. 26, which states Moroni's purpose in writing these things is to turn these things away - e.g., a mission statement of the BFM]. Pres. Benson, as "prophet" cited 8:25 in nearly every General Conference talk he gave. And these BFM teachers skip this? ~~It~~ [As salt that has ~~lost~~ lost its savor (3 Ne. 16:15)] This section received no mention in this Come Follow Up episode.
- 7:1 "Orshah did execute judgement upon the land in righteousness" [It's what we need, to turn right-side-up what ~~is~~ up-side-down in our 666-teetering society. Or def. "It 6666 rightness, rectitude, justice, virtue: - right, righteousness..."]
- 7:24, 25 [1st Amendment in BFM - King Shule executed a law to allow prophets to preach throughout land.]

Chris & I Did Not Perform Song for Church

Chris got sick on Saturday. We both prayed for his recovery in time to sing, with ~~B~~ faith that God could do this ~~if~~ if it ~~was~~ ^{was} his will. When the time approached to be leaving for Church, and Chris was still unable to sing due to the sickness, we guessed possible reasons, after all we've put into preparing for this (a month of ~3 1-2-hr practice sessions/week; investing key leaders, recording equipment). Chris took it as God's punishment ^{some of} to ^{the} volunteers (esp. Bro. Layton) developing a toxic attitude toward him/us. ^{at} Chaplain Hill, to his credit, this morning offered to set up an exclusive time to properly record the song.

Sterling Daily (11/30/24): Catholic Service: "O Come, O Come, Emmanuel" ["She" (Jer. 33:16)]

by Sterling D. Allan, 228033; USC F

my B-day is
Nov. 30, 2024, Sat. News Shows⁺ Highlights & [Commentary]

- This Week in Agy-Bus Natl. Christmas tree 60th Annv. [I turn 61 today]
- Exploration Outer Space Discoveries about Mars starting in 1960's, [B-day-ish?] 3 fly-by missions. No magnetic field. Olympus Mons: largest volcano in solar system, 3x Everest height, base size AZ
... i.e. Mars once had habitable environment.
- Fox 13 (local) UT AG Sean Reyes suit against TikTok - prime mission is to addict users, including, esp. children.
- OAN Tr- transition foregoing Fed. funds, office space.
- Har. campaign internal polling never showed her winning.

Practicing with Christian Fairbanks - we worked on an arrangement of "Oh Holy Night" with me on the piano. Previously, we'd been practicing with volunteer, Don Robinson on Tues. nights.

Perform at Catholic Service - Chris & I showed up there, hoping to ^{sing} "Oh Holy Night" for them. He was raised Catholic (dad)/Mormon (mom). I volunteered to play piano for their opening song, "O Come, O Come, Emmanuel"; also played it for prelude. As they started singing, I could tell that what they were used to singing (chant) was very different from the way I was playing it. I sang^(all 2 verses) confidently to guide them. Their musical guide (Ann Kate) wondered what to do. Chris urged her to ^{sing} sing out. She did, and so I started singing harmony. They seemed to appreciate the change - so much more rich than what they were used to. A part way through the service, I raised my hand to see if I might make a comment, and was allowed, even

though that usually (apparently) doesn't happen until the end. (2)

I pointed out that the Jer. 33:14-16 cited, in the KJV gives a feminine pronoun for Messiah: "this is the name wherewith she shall be called, The Lord our righteousness." I pointed out that perhaps the "again the second time" (Isa. 11:1) advent could entail both a male and female component. I also pointed out that the prophecies of end-times destructions are based on a non-repentance scenario, and that society could avert these by repenting, which the scriptures clearly invite. # Though there were many mistakes in Chris' & my performance of "Oh Holy Night" at the end, there were also many great moments, especially the end. Chris said he received some generous comments along the lines of, "You're better than Josh Groban," and, "You guys should be on A&T," and, "the piano was on fire." All of that was a function of ^{embracing our} gifts of the Spirit — God — bringing heaven to earth. What meant the most to me was Amakate's telling me she loved my comments. It's refreshing being appreciated.
