Sterling Daily (9/11/24): 9/11 Was an Inside Job

by Sterling D. Allan, 228033; USC &

Sept. 11, 2024, Wed. News+ Highlights & [Commentary]

"Modern buildings [e.g. 47-story WTC 7, not hit by a plane] do not fall at free-fall speed [which WTC 7 did, in controlled-demolition style, into its own footprint, with simultaneous blasts up its support columns just before it came down] without help [military grade nanothermite was found replete in the G & dust, documented in peer-reviewed scientific journal by my friend, Prof. Steven E. Jones, BYU] from the inside [pre-positioned demolition charges, takes many weeks, with permission (especially difficult having to avoid detection by the uninstituted around them)]" - SDA
∴ 9/11 was an inside job [Dick Cheney a key mastermind]

Institute Bro. Jeff Jensen

- Me: 9/11 inside job (↑ snuffed that); BoFM prophecies of conspiracy in our day, need to be vigilant
- 💡 • (Bro. Jensen, on white board, depicted the final resurrection before Satan being loosed, spurring this thought/comment from me.) "I've long wondered about that last loosing of Satan, wondering how that could be. But with the notion of all souls being resurrected, including the evil / celestial ones, now being given the advantages of a resurrected body, I can see how there could be a conflict arise that until then had been held at bay by righteousness."

- Me: "The sooner you forgive, the sooner you can move on."

Me? "About a year ago, there were a number of (4) people in my section who were ganging up on me, being super rude / disrespecting to me, and posturing themselves in a threatening way. I felt to be in danger. I went to the bathroom stall to have privacy to pray, and the impression I received was, 'perfect love casts out all fear.' So that became my strategy. I showed love and respect to the people who were hating on me, and it was disarming, diffusing the danger I was in.
