

Gender Affirming Care Group — Response

by Sterling D. Allan, 228033; USCF B2-1 101A

Feb. 28, 2025

Today, I noticed a new form link on our tablet that was added on 2/13. It's listed as the first item of 19 forms available. The list is ~~not~~ chronological ~~not~~ alphabetical until that entry, which is followed by "Inmate Accounting—Communication Request" (Feb. 27, 2025), which should be first, if the chronological sequence was followed. Someone is getting away with an agenda. Here's what I submitted this morning:

<If you are interested in joining Gender Affirming Care Group, please discuss why you think this group will be beneficial for you. >

NOT INTERESTED —amazed that this occurs. It is a mental illness, not reality —an extremely damaging fad that results in permanent infertility and painful procedures that don't go away (cutting off healthy body parts, artificial hormone changes internally).

Those who are complicit in promoting this, especially staff, are going to be held accountable. This is criminal neglect and damage to those who are vulnerable. Incarceration must follow those who don't genuinely repent of this crime.

If I identify as weightless, can I jump off a building? Of course not! To encourage someone thus deranged makes you culpable. You are (1) listing

(2)

↑ this form on the forms page (2) prominently — at the opening of the forms page. This is ultra-criminal. ↑

You have been put on notice. A class action suit is nearly sure to come. Think of all those vulnerable inmates you are encouraging to jump off that building, metaphorically.
