Inmate. Sterling D. Allan (thrs website) proposes "All In (with your unique mission in life), Synced Up (with diversity in all you do)" motto/remedy to be adopted by UDC (Utah Dept. of Corrections) to resolve their institutional rot. He recommends thrs "All In, Synced Up" motto for all of humanity and would like to see UDC demonstrate how effective it can be for transforming an out-of-order system. Thrs is his 'mercy' option he wishes to present to UDC on 8/27 9am.

The 'justice' option is to face a major lawsuit for their many criminal actions against him, including intentionally subjecting him to the jeopardy of his life several times; obstruction of justice; aggravated as hate crimes; and many violations of his basic human rights.

At the end of his presentation, state & federal representation attending will then vote which way to go: (A) Mercy: (1) Have UDC adopt the motto; (2) require all UDC staff to view the one hour presentation; and (3) make the presentation publicly available; or (B) Justice - face being sued.
