<Including whatever caveat is needed/wished by the relay, to distance themselves from my material. [^] Sterling asked me to send this to you. He's hoping you'll get it in front of Elon Musk and/or Pres. Trump.>

→ On ^{Thu.} Wed, 3/13 night, 6:30 PM, Mountain, I'll be giving my "Icebreaker" intro presentation to our prison Toastmasters group. I have reason to believe it could be the most important and potentially impactful icebreaker given thus far in Toastmasters' 100 year history ^{having content} — bigger than the asteroid splash that wiped out the dinosaurs — except this is for our salvation not destruction, thanks to Jesus Christ. ¶ In the 4-6 minute slot, I plan to touch on the main supporting points for the above book statement, based on metaphysical principles that will have powerful physical manifestation. This will include the ability to teleport (to) anywhere (AF B Filter) in the universe, and the ability to access all truth (AF B, 2 Ne. 30:16-18) via a mind-directed Infinite Interface (II), including being able to communicate with our $\sim 10^{49}$ E.T. friends (people like us on planets like ours). Inter-universe commerce and capability exchange is an obvious outcome.

Can you see why I think this presentation is deserving of representatives of Pres. Trump and/or Musk showing up? I'd love to be able to view their response to points made, and establish dialogue. Their presence would underscore the significance of my proposal.

"What I have will make Trump and Musk pale in comparison, and they'll help lead it!"

Briefly, one of the main features of my paradigm is facilitating people becoming joint heirs of Christ, fulfilling the "Ye are Gods" invitation to humanity (Ps. 82:6; John 10:34; Isa. 41:23). Jesus said that those who follow him can do all that he did, and greater (John 14:12). He teleported ^(tr'd) a boat full of disciples (John 6:21).

There are four words that distill what it ^{takes} to become a joint heir: "all-in, synced up": "all in" with one's unique mission in life (e.g. Eph. 4:1), "synced up" in following divine guidance/intuition/goodness/common sense. This is doable by everyone, and is where the greatest joy and fulfillment is found. I see Tr. and Musk exemplifying these attributes in large measure.

I see us being on the brink of these things materializing in cascading manner, getting up to 125 million such individuals in one year after the cascade starts—which could begin any day now. The repentance of the country that enabled Tr.'s election victory needs to go ~~to~~ to the next level to commence this millennial reign of peace, launching with the roll-out of these joint heir gifts of the Spirit that will include the Job 33:25 fountain of youth to all who wish to live through the Millennium and will enable Tr. to serve as U.S. President through the Millennium.

This icebreaker/astroid-crush-averting (Dan. 12:1) speech will take place in the Bear Low-Side Chapel 1 at Utah State Correctional Facility, March 13, 6:30 pm. The prison will provide more than ample security for your presence among safe inmates. I'll be introduced by Fonua, co-Founder
