When I first became aware of Real America's Voice (RAV) TV a few months ago, I was thrilled to have found a channel available here in prison dedicated to bringing excellent conservative/MAGA news and commentary, 24/7. It took only a few days to see that all the hosts were unafraid to say the 2020 election was stolen. I found a home.

I was puzzled, though, that there was never any mention of 9/11 being an inside job. And now that we've gone through the 21st anniversary, I'm disappointed to see that they, as a body, not only don't go there, but they actually decry those who do. David Zere is their primary spokesman of this view, showing up in Bannon's War Room, John Frederick's show, Drew Hernandez' Frontline, and more.

To be frank, Zere comes across as less than brilliant to those of us who have studied this carefully. No one us ever said no planes hit the buildings. It was WTC 7 that fell that day into its own footprint in classic demolition manner that wasn't hit by a plane. Its collapse was via pre-

placed demolition charges. That requires insider involvement. The Twin Towers, WTC 1 & 2, also exhibited many signs of pre-placed demolition charges. U.S. military grade nanothermite was found replete in the dust. This was published in a peer-review journal by my friend, Steven E. Jones, who was "retired" by BYU's cowardice over it. Remember, the LDS Church First Presidency congratulated Biden on his "win." BYU retired Prof. Jones the year they had 9/11 mastermind Dick Cheney speak at their commencement and receive an honorary doctorate. This quelled the momentum for the 9/11 Truthers to bird-dog his master-minding role in the attacks. He skated (then) thanks to BYU. Impressed? (See my article about this at PatriotSaints.com.)

Zere also thinks he's being so smart to point out the definite footprint of Islamic terrorists. 9/11 Truthers don't deny their involvement. They merely see them as pawns of the U.S.⁺ conspirators, who helped set them up to play their role, so they could blame the attacks on them (who loved the credit).

Wake up, RAV. This conspiracy has been growing since Cain. Why can't you see the obviousness of the establishment's involvement in 9/11? Same players two decades prior. They've been at this a very long time. So, can you see why they pulled out all the stops to steal the 2020 election from Pres. Trump? He leads their exposure, indictment, and

imprisonment or worse for their tyranny — if they don't genuinely repent. They definitely don't want that (consequences). They want their hell on earth to prevail (Dan. 7:21; Rev. 13:7); which it will, if we don't repent (2 Chron. 7:14; 1 Ne. 15:24; Hel. 5:12).
