For being "anti-Socialism," Republicans sure hold socialist Social Security and Medicaid as sacred cows, promising to not touch them budgetarily.

Recognizing the opportunity, in his State of the Union address, Biden jumped on that and got a promise from them to take these off the table for budget/debt ceiling discussions. He could see that on this matter, the Republicans are fully captive to Satan, as he is, across the board.

Satan's promise in the pre-mortal war in heaven, drawing a third of the hosts of heaven to his side was essentially, "No one will be lost; everyone will be taken care of — but at the price of agency (Moses 4:1, 3). Satan's plan does by force of government what we should do voluntarily by charitable organizations. It's cold tyranny vs. warm freedom.

I elaborate further on this in the 8/16/22

"Amendment to Eliminate Socialist Welfare" editorial, which is based on Appendix C-2 of my None to One: Evoking the Repentance Clause of Prophecy book available from IIndComing.com.
